

# HYCON – Network of Excellence

## **WP5 – Knowledge management Achievements and milestones M7 - M12**

Prof. Dr.-Ing. J. Lunze «Lunze@atp.ruhr-uni-bochum.de»  
Dipl.-Ing. A. Schild «Schild@atp.ruhr-uni-bochum.de»

# WP5 overview

## Knowledge

- **Problems:**
  - Open problems
  - Project aims
  - Benchmarks
- **Solutions:**
  - Publications
  - Software
  - Experimental data
- **Lecture notes:**
  - Tutorials
  - Examples
- **Activities:**
  - Projects
  - Research

## Management

- **Location and acquisition**
- **Archiving**
  - Organisation of the knowledge domain
  - Appropriate Storage
- **Provision of access**
  - Passive role
- **Dissemination**
  - Active role

Annotated bibliography

Taxonomy, glossary

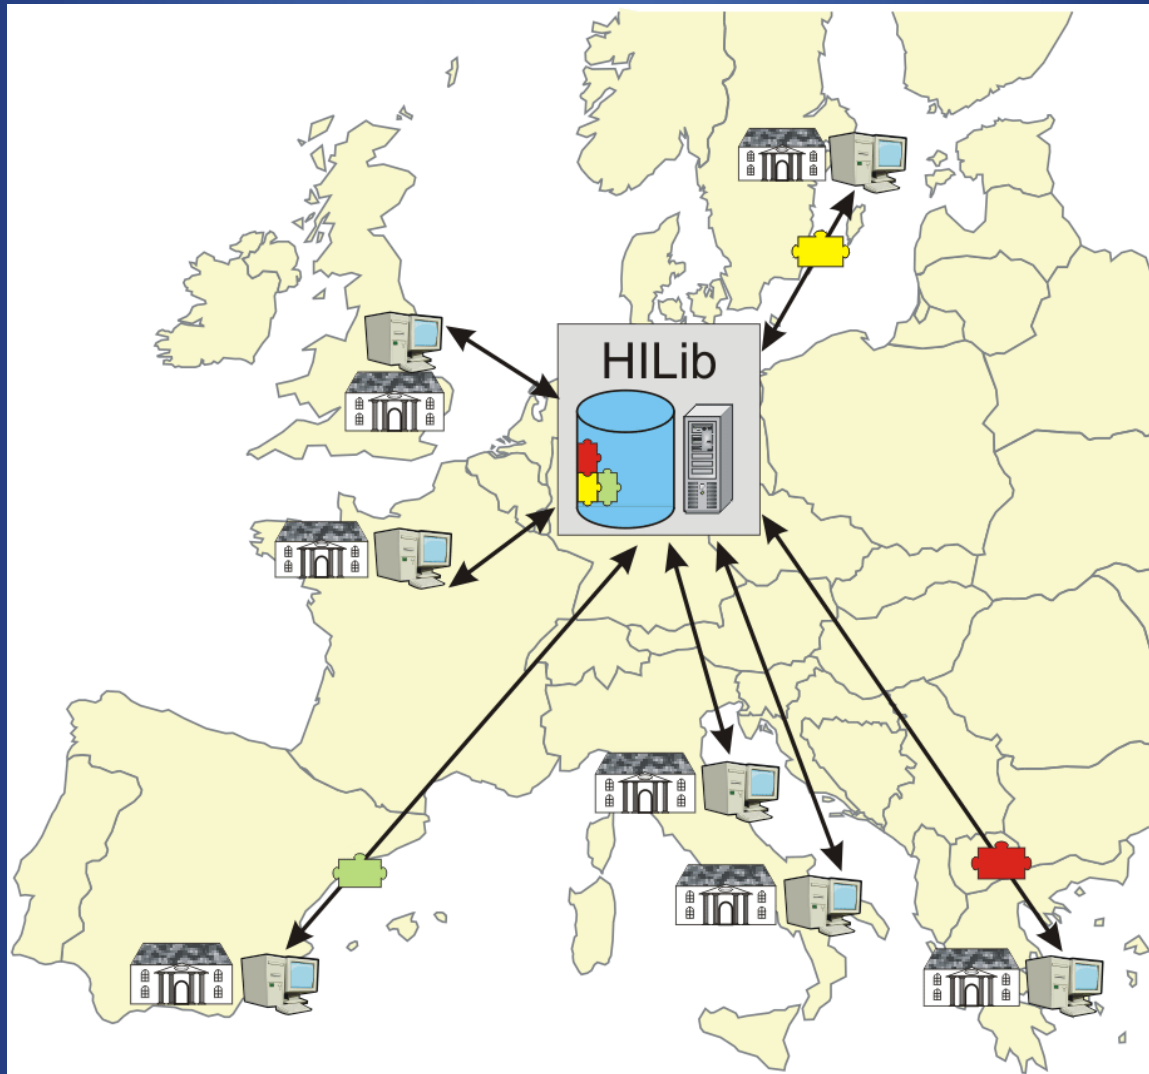

Virtual library (HLib)

On-line handbook

Summer school

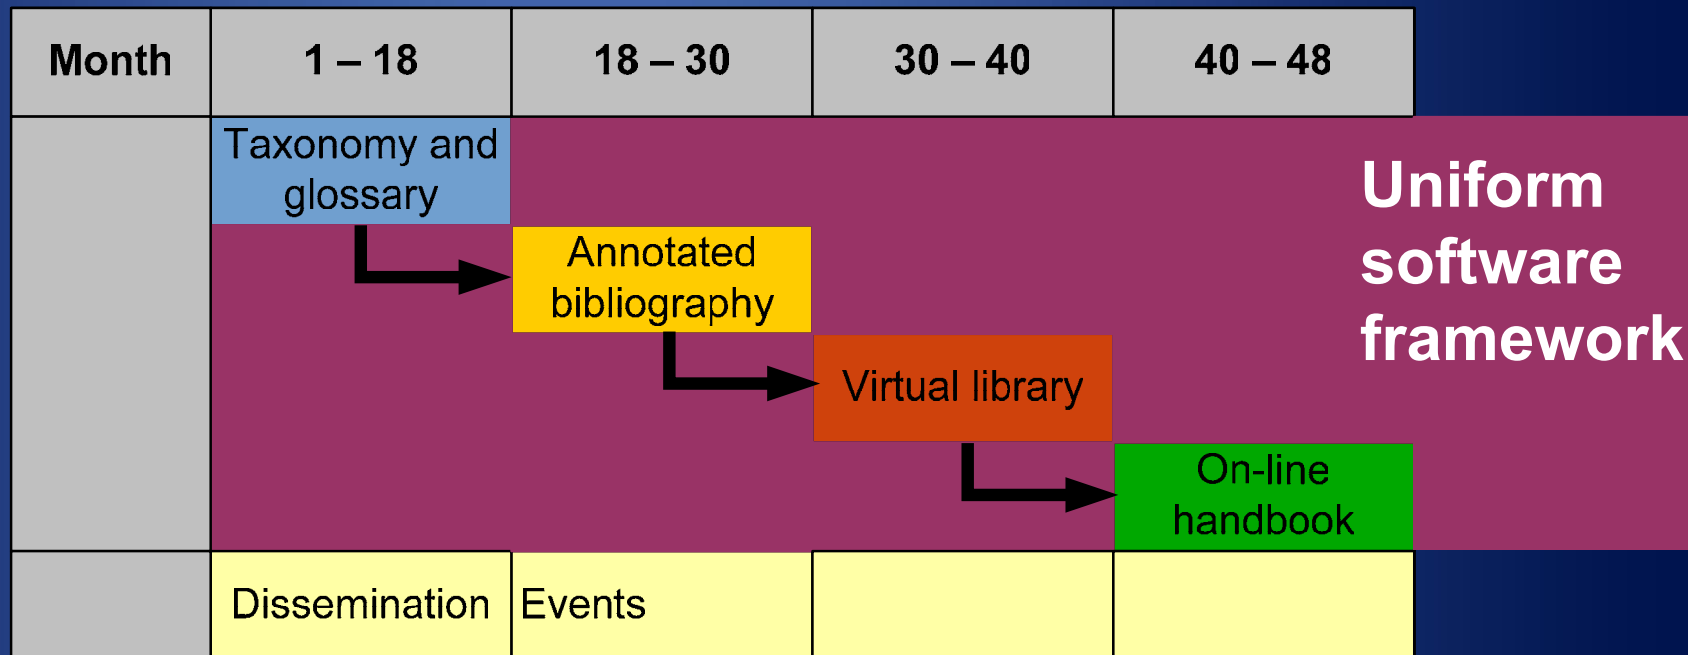

## WP5 overview

- **Integration activity:** Shared infrastructure across NoE
- **Decentralized submission** of documents by NoE nodes
- **Representation** of the NoE as a single entity

# WP5 overview

**Task 5.1:** Taxonomy and Glossary of hybrid systems

**Task 5.2:** Annotated bibliography

**Task 5.3:** Virtual Library of hybrid systems (HILIB)

**Task 5.4:** On-line handbook of hybrid systems theory

**Task 5.5:** Dissemination events

## WP5 activities

- **1<sup>st</sup> draft of Taxonomy of hybrid systems**
  - **Milestone 5.1.2:** Workshop for the discussion and extension of the first of the taxonomy and glossary (M10)
- **Setup of basic technical infrastructure of annotated bibliography**
  - **Milestone 5.2.1:** Creation of a working group for the creation of the annotated bibliography (M10)
  - **Milestone 5.2.2:** Workshop for the discussion of the annotated bibliography (M10)
- **Spreading of excellence through**
  - 2nd WP5 workshop, 18<sup>th</sup> July, Siena, Italy
  - 1<sup>st</sup> HYCON PhD. School, 19<sup>th</sup> - 22<sup>nd</sup> July, Siena, Italy

# WP5 activities

- Submission of documents into repository

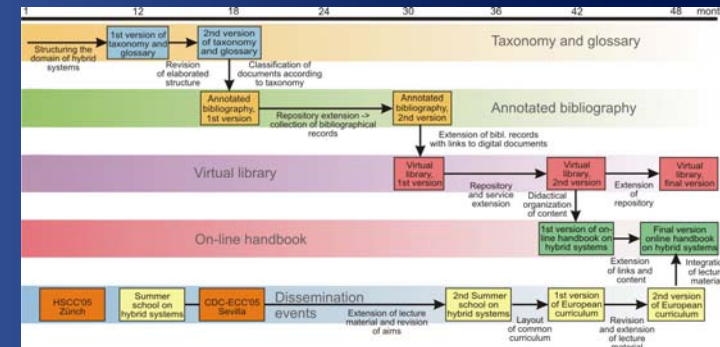

- Adaptation of task structure

- WP objectives remain unaltered!
- Schedule reflects activities of WP5 better

- Implementation of reviewer recommendations

- WP5 homepage re-implementation
- “Identity to build”
- Integration with WP4c

**Progression as planned!**

# WP5 – Milestone 5.1.2 - Taxonomy

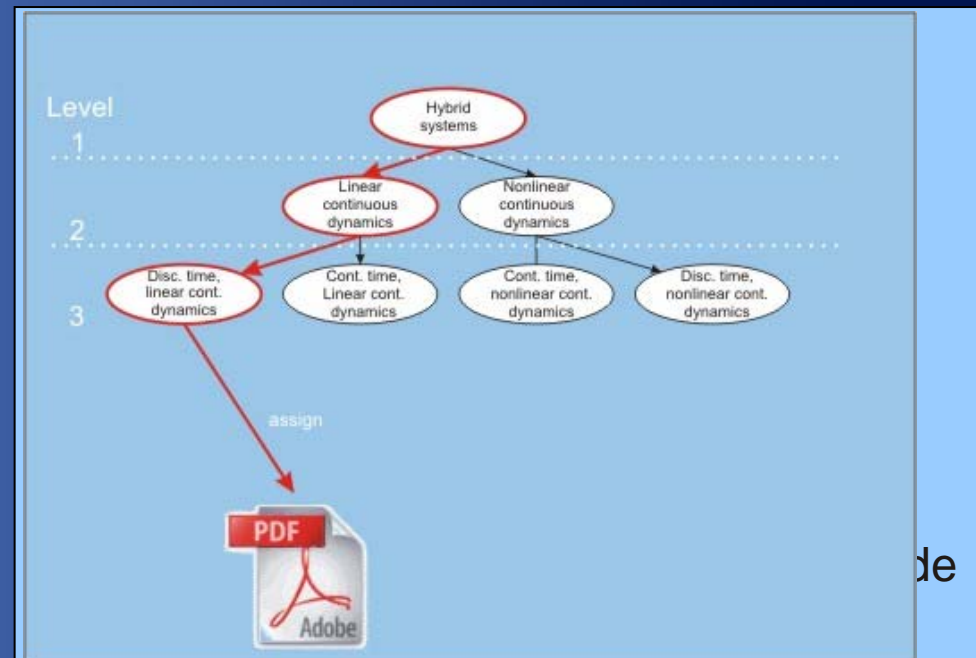

**Metadata** essential for efficient documents retrieval

- Browsing documents by subject
- Query formulation and refinement
- Measure for document distance

Different classification approaches possible

## 1. Hierarchical classification (Enumerative approach)

- Not practical
- One-dimensional order

# WP5 – Milestone 5.1.2 - Taxonomy

## Problem of one-dimensional order

Models Controller Stability  
Design Analysis

Switched Nonlinear  
Systems Systems

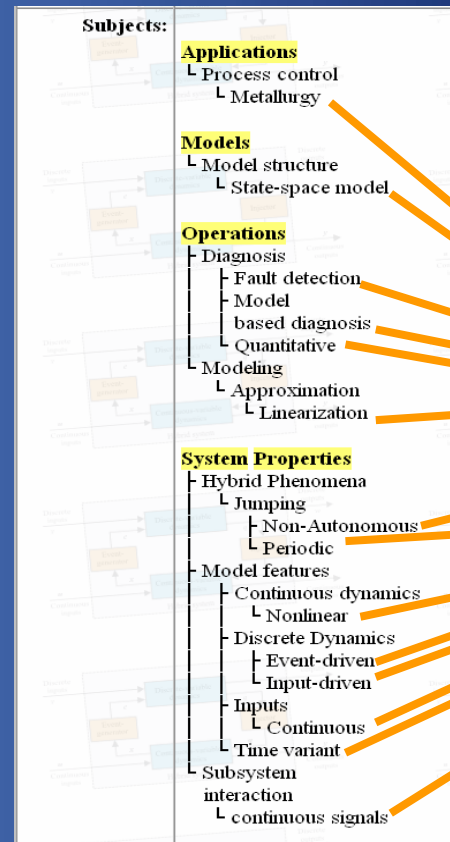

# WP5 – Milestone 5.1.2 - Taxonomy

## 2. Facetted classification

- “Structured tree of keywords”
- Intuitive usage
- Multi-dimensional order

→ More information included compared to title alone!

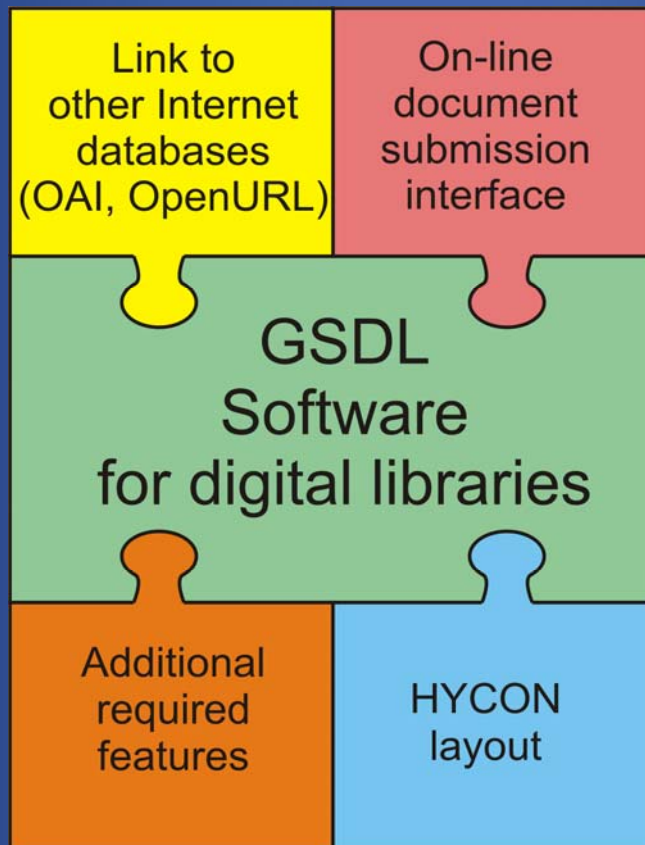

→ Higher precision in document retrieval

„A cold rolling mill model for unwinding diagnosis“

## Implementation concept

### Criteria:

- Open source software and acceptable maintenance effort
- Allows integration of multi-media documents
- Long-term support ensured
- Implements OAI-interface  
→ link to other databases

# WP5 – Milestone 5.2.1 + .2 – Annotated Bibliography

## Preliminary user interface of annotated bibliography

Operations

Diagnosis

Model based diagnosis

Bib "Comparison of Interval Models and Quantised Systems in Fault Detection of the DAMADICS Actuator Benchmark Problem"  
Authors: V. Puig, J. Quevedo, A. Stancu, J. Lunze, J. Neidig, P. Planchon, P. Supavatanakul  
Publication Date: 2004  
Document Typ: *Proceedings*, Document Format: *PDF*  
No. of pages: 7

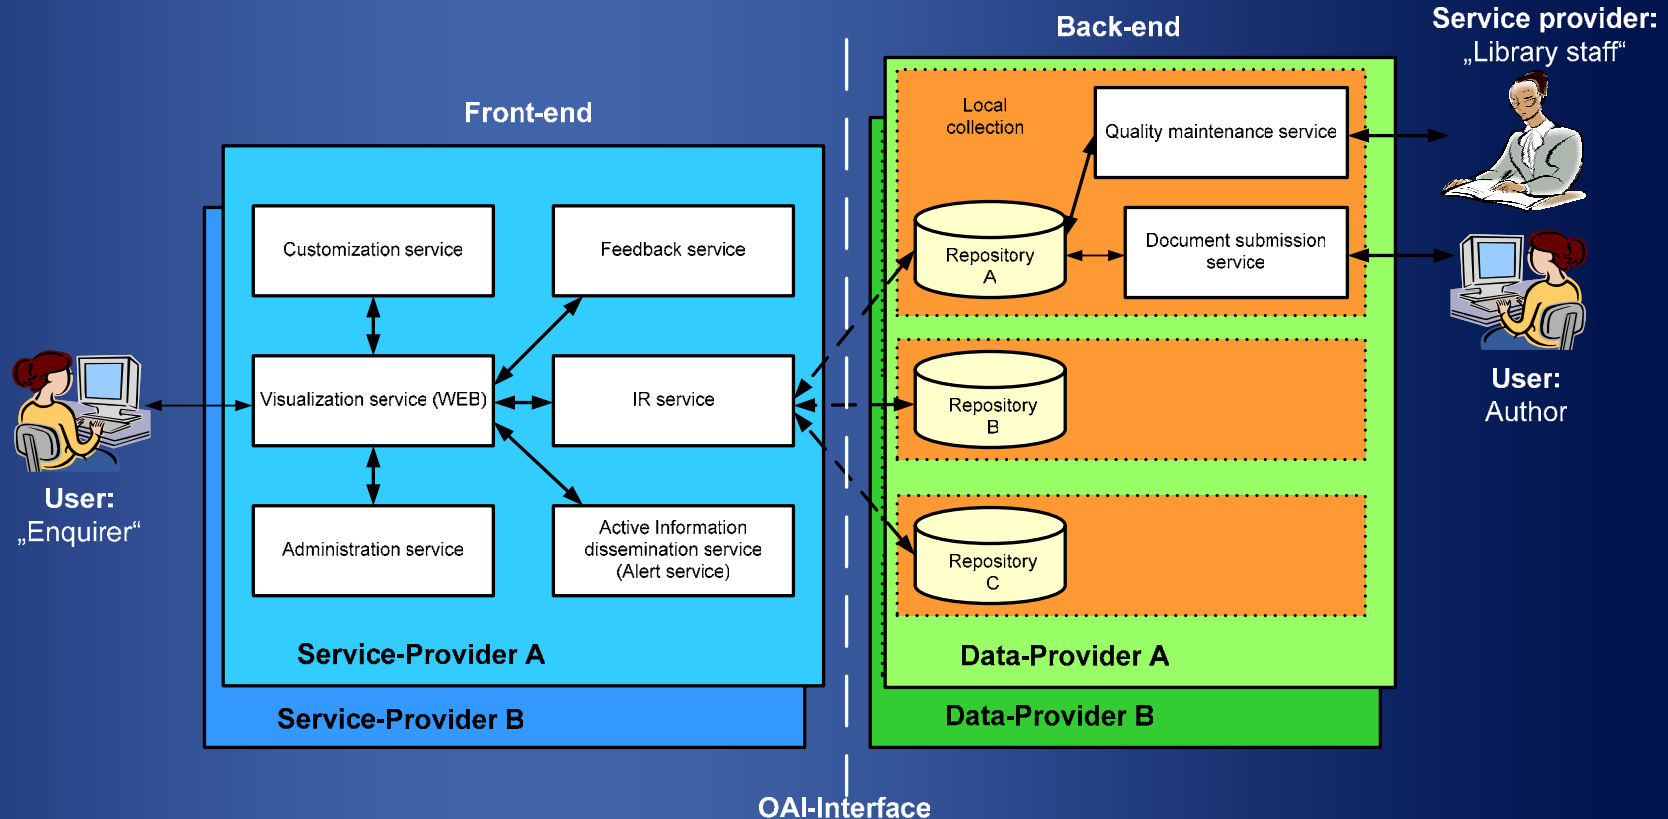

Bib "Qualitative Diagnosis of an Automotive Air Path"  
Authors: J. Neidig, C. Falkenberg, J. Lunze, M. Fritz  
Publication Date: 2005  
Document Typ: *Article*, Document Format: *PDF*

**Extension of functionality requires core group of dedicated partners!**

# WP5 – long term objective

## Infrastructure concept of virtual library

## WP5 – Milestone 5.3.3 – 1st HYCON PhD. School

- Location: University of Siena, Italy
- Duration: 4 days → **15 Lectures**
  - Didactic structure
  - Broad overview of problems and existing methods
- **157 attendants** from across Europe
- **Extremely positive feedback!**
- Lecture material will be made accessible on-line until December 2005 **(D5.3.4)**

The screenshot shows the website for the 1st HYCON PhD School on Hybrid Systems, held at the University of Siena from July 19-22, 2005. The page features a navigation menu with links for School Program, Registration, Travel Info, General Information, Organizers, Hotel Reservation, and About Siena. Below the menu, there is a section titled 'Hybrid Systems' with a small image of a book cover. The text describes the school's focus on hybrid systems, including modeling, stability, and control. It also mentions financial support from the European Community and the University of Siena. At the bottom, there are logos for the Information Society, HYSKOM, and the University of Siena.

## WP5 – Milestones and Deliverables M7- M12

Task 5.1: On-line handbook on hybrid systems

Task 5.2: Virtual library

Task 5.3: European curriculum on hybrid systems

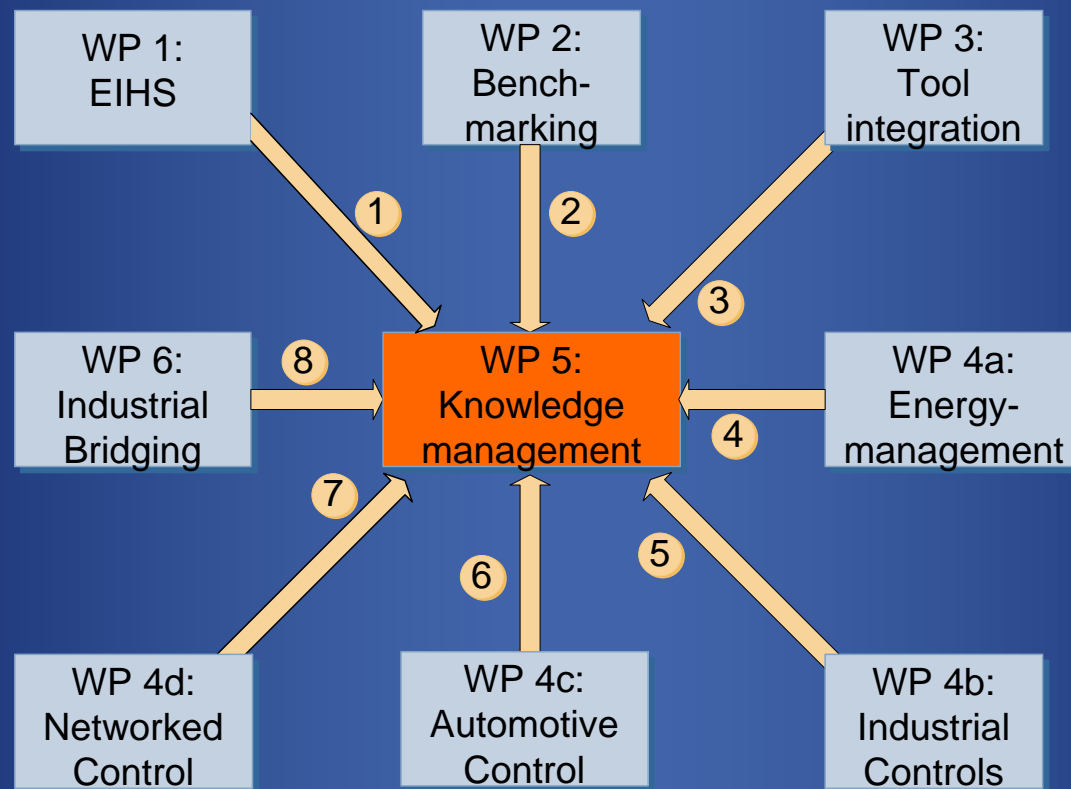

Milestones		
M5.1.2	Workshop for the discussion and extension of the first of the taxonomy and glossary	Sept 2005 ✓
M5.2.1	Creation of a working group for the creation of the annotated bibliography	Sept 2005 ✓
M5.3.2	Definition of the aim and scope of a HYCON summer school	Sept 2005 ✓
M5.2.2	Workshop for the discussion of the annotated bibliography	Dec 2005 ✓

**Progression as planned!**

**Remark:** in the next period the revised task structure will be used for WP5 → different task names and numbers but same objectives!

# WP5 Identity – Opportunities for integration

- ① - Marketing of Network results through infrastructure
- ② - Documentation of Benchmark problems
  - Archiving experimental Data
  - Documentation of „best practice“ approaches
- ③ - HYCON tool repository, demonstrator site
  - Classification and description of existing tools
- ④ - Listing of ongoing projects and their description
  - Results of application of methods on case studies
  - Documentation of case studies
- ⑤ - Modeling- and Controller design guidelines in the automotive industry

⑧ - Lecture materials of seminar programme

⑦ - Identification of open problems in the domain of networked control

⑥ - Modeling- and Controller design guidelines in the automotive industry

## WP5 planned activities M13-M30

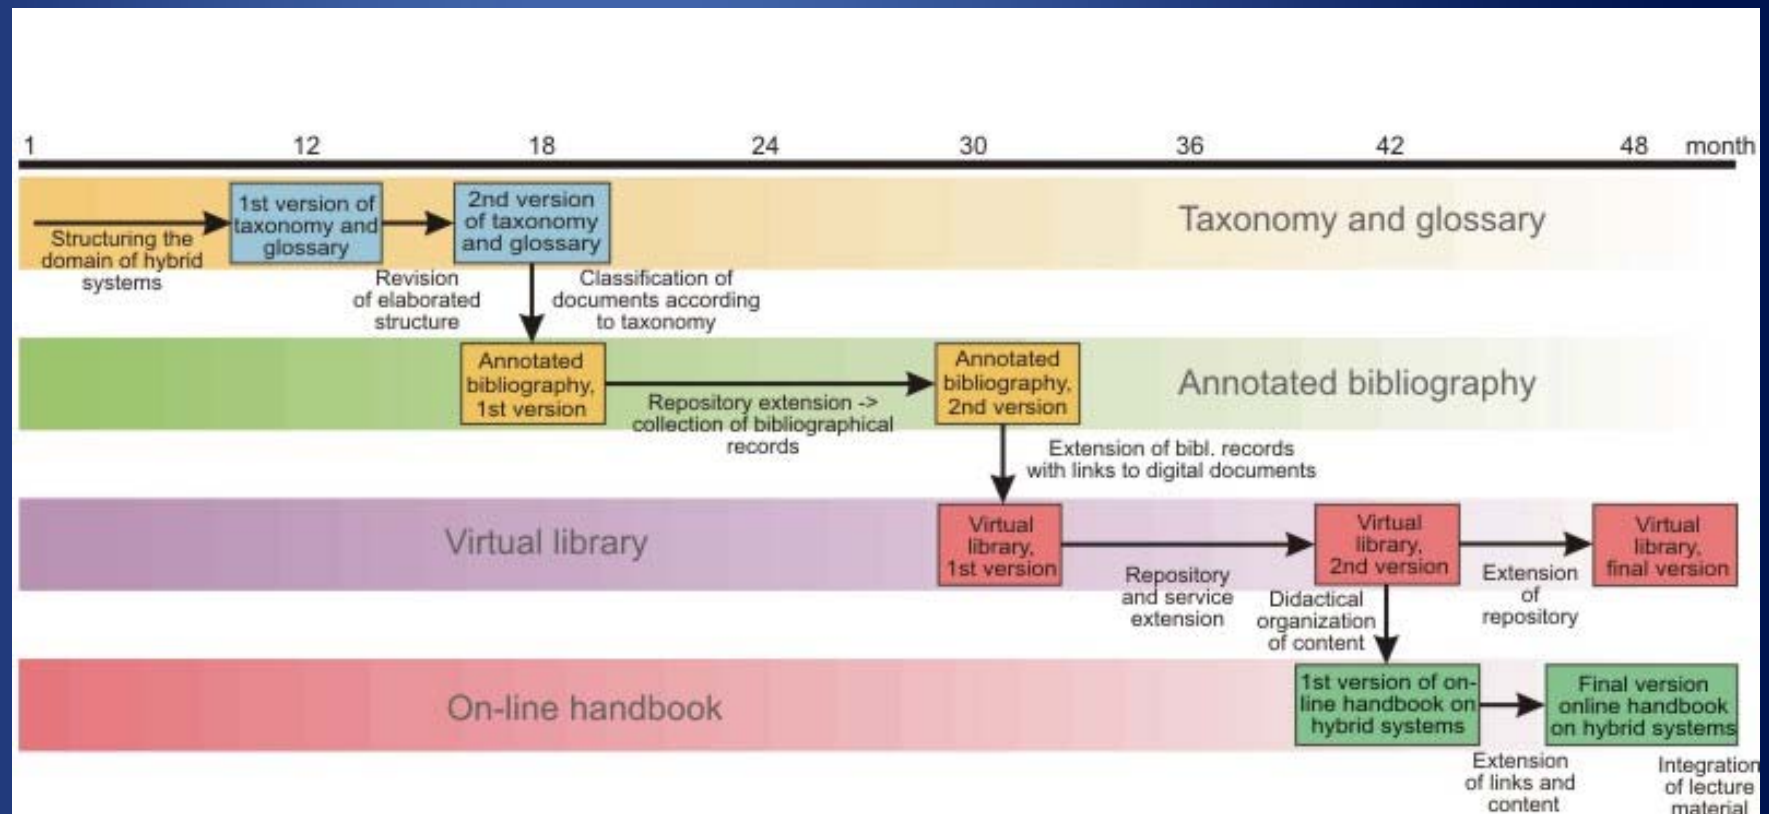

- Extension/revision of taxonomy
- Extension of **annotated bibliography**
- **Finish concept** of virtual library
- **Intensify the integration** with other WPs

Month	1 – 18	18 – 30	30 – 40	40 – 48
	Taxonomy and glossary			
		<b>Annotated bibliography</b>		
			Virtual library	
				On-line handbook

## WP5 – Documentation of progress M7 – M12

- Milestone and deliverable reports (HYCON homepage)
- PPR1 (Apr., 2005)
- WP5 homepage  
→ <http://foellinger.atp.ruhr-uni-bochum.de/HomeWP5>
- Minutes of 2<sup>nd</sup> WP5 workshop (July, 2005)
- PPR2 (Oct., 2005)

# WP5 – Work package schedule

# WP5 – planned Milestones and Deliverables M13-M30

## Task 5.1: Taxonomy and glossary of hybrid systems

Deliverables		
D5.1.3	Taxonomy and glossary available on the WEB for the NoE ( <b>RUB, UT, UP</b> ) → <b>3,5 MM</b>	Mar 2006

## Task 5.2: Annotated bibliography

Milestones		
M5.2.2	Workshop for the discussion of the annotated bibliography ( <b>RUB</b> )	Dec 2005
M5.2.3	Call for submission of bibliographical items ( <b>RUB</b> )	Dec 2005
<b>M5.2.5</b>	Workshop for the discussion of possible extensions to the annotated bibliography and about the procedure for its promotion ( <b>UT</b> ) → <b>0,5 MM</b>	<b>Jul 2006</b>
<b>M5.2.7</b>	Survey of requirements regarding additional functionality of the annotated bibliography from the perspective of other HYCON WPs ( <b>UNIDO, SUPELEC</b> ) → <b>2 MM</b>	<b>Oct 2006</b>

# WP5 – planned Milestones and Deliverables M13-M30

## Task 5.2: Annotated bibliography

Milestones		
<b>M5.2.8</b>	On-line interface which links the taxonomy to the metadata generator and the annotated bibliography is available ( <b>US, UVA</b> ) → <b>2,5 MM</b>	Nov 2006
<b>M5.2.9</b>	Elaboration of a work-flow process for a decentralized repository administration of the annotated bibliography ( <b>UNIDO, CNRS</b> ) → <b>2 MM</b>	Dec 2006
<b>M5.2.10</b>	Increased number of users of the annotated bibliography among researchers of the NoE ( <b>RUB, UNISI, UCL, CNRS, UT</b> ) → <b>3 MM</b>	Jan 2007
Deliverables		
<b>D5.2.4</b>	Annotated bibliography available on the WEB ( <b>RUB</b> ) → <b>1 MM</b>	Mar 2006
<b>D5.2.6</b>	Metadata generation tool (HYDRA) for authors ( <b>RUB</b> ) → <b>4 MM</b>	Oct 2006
<b>D5.2.11</b>	Revised annotated bibliography (2nd version) ( <b>RUB</b> ) → <b>2 MM</b>	Mar 2007

# WP5 – planned Milestones and Deliverables M13-M30

## Task 5.3: Virtual library

Milestones		
<b>M5.3.1</b>	Final definition and discussion of the repository structure and the basic services offered by the virtual library ( <b>UAQ, TUE</b> ) → <b>3 MM</b>	<b>Dec 2006</b>
<b>M5.3.2</b>	Workshop for the discussion of the concept of the virtual library ( <b>CNRS</b> ) → <b>0,5 MM</b>	<b>Jan 2007</b>

## Task 5.5: Dissemination activities

Milestones		
M5.5.3	Call for participation at the special session at ECC-CDC ( <b>US</b> )	Oct 2005
M5.5.6	1st HYCON summer school on hybrid systems	Dec 2005 ✓
M5.5.4	Call for participation at the special session at HSCC	Jan 2006 ✓

# WP5 – planned Milestones and Deliverables M13-M30

## Task 5.5: Dissemination activities

Deliverables		
D5.5.5	Lecture material of the summer school (UNISI, RUB)	Dec 2005
D5.5.7	Proceedings of the special session on hybrid systems at ECC- CDC (US)	Mar 2006
D5.5.8	Proceedings of the special session at HSCC	Mar 2006
