

# HYCON Workshop on Automotive Applications of Hybrid Systems

May 26-27, 2005

PARADES, Via di San Pantaleo 66, Rome (I)

The aim of the workshop is identifying challenges and opportunities for hybrid systems in automotive design. In particular, we will discuss:

- Industrial trends and concerns
- Methodologies, flows and tools
- Theoretical open problems

## Participants:

- HYCON partners
- Automotive companies
- Invited
